

Echo Tower — Level Design Notebook

Symbol key, used on every level page and the blank templates below.

Wall

. Floor

Void / outside

> Stairs (exit)

@ Player start

E Echo statue — copies your move

M Mirror statue — moves opposite

\$ Crate — pushable, sinks in water

~ Water — impassable until filled

a b c Momentary button (channel a/b/c) — needs weight

p q r Latching button (channel a/b/c) — stays pressed

A B C Door (channel a/b/c) — open while its channel is active

How to use this notebook

Floor pages: each shows the current room. Circle or cross out what isn't working, draw arrows for a new path, add walls/pieces in the margin, or just jot ideas on the lines.
Blank pages: sketch a brand-new room using the same symbols. Print as many as you like.
To bring a design back into the game, transcribe it as a row-by-row text map — see [echo-tower/DEVELOPMENT.md](#) → “Map legend” for the exact character reference.

Floor 1 · First Steps

Introduces: Reach the stairs. Move with arrow keys or WASD.

Notes / changes

Floor 2 · Copycat

Introduces: The statue echoes your every move. Walls stop it — use them.

Notes / changes

Floor 3 · The Gatekeeper

Introduces: It cannot follow where walls forbid.

Notes / changes

Floor 4 · The Switch

Introduces: Square switches stay pressed forever.

Notes / changes

Floor 5 · Hold It Down

Introduces: Round buttons only work while something stands on them.

Notes / changes

Floor 6 - Boxed In

Introduces: Crates can be pushed — and they are heavy.

Notes / changes

Floor 7 · Sink or Swim

Introduces: Nobody can cross water. A crate might change that.

Notes / changes

Floor 8 · Contrary

Introduces: This one does the exact opposite of you.

Notes / changes

Floor 9 · Twin Trouble

Introduces: One copies, one opposes. Both doors must open.

Notes / changes

Floor 10 · The Penthouse

Introduces: Everything you have learned, all at once.

Notes / changes
